

Summer Technology Fun

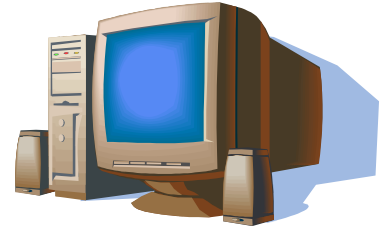

With Mrs. Shaler

Do you want to learn more about taking pictures, photo editing, music, shooting video and video editing? Do you think you might be the next Steven Spielberg? Or maybe the next Michael Bay? If you answered "yes" to either of these questions then you need to join us this summer for a video production class. Projects in this class may include the making of photo collages, music videos or a complete video movie. We will teach you how to direct, and edit your movie just like the professionals. Yes, this will include the use of special effects. When you leave you will get to take the finished product(s) with you on a CD or DVD, or in print.

*Video editing for older kids may require (but does not have to) the use of a digital video camera- the school does not provide one.

Where: Windsor Charter Academy
680 Academy Court
Windsor, CO
Upstairs Technology Lab

Dates: Session 1: June 8-12
Session 2: June 15-19

**More sessions can be made available if there is enough interest.

Time: 9:00- 11:00 each day

Cost: \$50 for the week

Class size: This class is offered to students entering grades 3-9 and parents of any age. Each session must have a minimum of 4 and maximum of 20 participants.

For more information about this class feel free to contact Angie Shaler at 970-381-6758.

Please return Registration for WCA's Summer Technology Fun to the office by April 30, 2009
